16" RUBBER FIRE BOOT - 6991625

MARKETING COPY:

Black Diamond rubber fire boots provide maximum comfort and protection. The upper features flame-resistant rubber with added shin impact protection. Steel safety toe and steel puncture resistant plate keep you safe from impact and puncture hazards. The flame-resistant rubber outsole is paired with a triple ribbed steel shank for durable traction and added stability. The removable OrthoLite® footbed gives you the all-day comfort you demand. This 16" rubber fire boot is certified to the requirements of the NFPA standards.
