

AC VOLTAGE DETECTOR

SAFETY WITHIN REACH

Designed by Will Burt and assembled in the USA, D TEC Reach is a rugged, handheld AC voltage detector that detects AC energy fields and provides clear visual and audible alerts to warn first responders of potential hazards.

Early warning of high voltage AC current

Intuitive controls and simple to use

Adjustable sensitivity

Detects household current to overhead transmission lines

Includes storage bag

Loud audible alert

Visual alerts

Battery powered – 4 AA included

Weighs only 1.30 lb. / 0.59 kg with batteries

CE / UKCA Compliant

Designed by Will-Burt and assembled in the USA

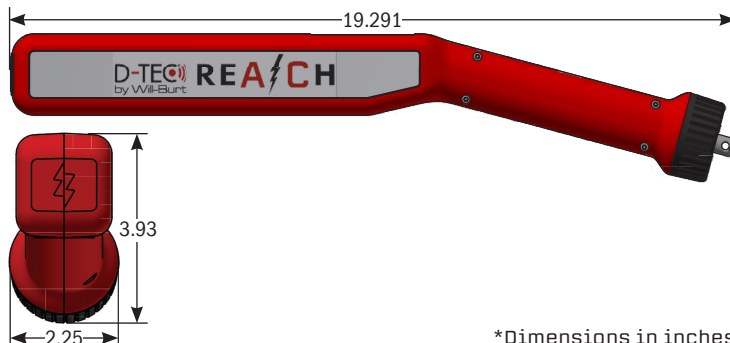

SPECIFICATIONS

Detection Distance			
Sensitivity Setting	Voltage Source		
	120/220V	7.2/16kV	46kV
High	36 in	150 ft	350 ft
Medium	18 in	60 ft	175 ft
Low	6 in	15 ft	50 ft

*Distance will vary based on environmental conditions

DIMENSIONS

*Dimensions in inches
