OUR MISSION

For over 40 years, Turtle Plastics has been manufacturing safety stabilization products and matting. All our products are made in the USA. Our mission is to help organizations protect the health and safety of its workforce while increasing sustainability, as well as reducing negative environmental impact by creating meaningful products from 100% recycled plastic. Please check with your authorized distributor of our products for more great products. Please note product part numbers shown on this line card may vary depending on your distributor.

HYBRID CRIB®

Mfg. Part #: 44PL-18

- Available as a kit with 18 cribs (Mfg. Part #: CT44PL-18).
- Working Load: 20,500kg/45,194lbs

A Safer and Cleaner Alternative to Wood.

Why put dirty wood back onto your apparatus?

All Turtle Plastics' products are ergonomically designed, **washable**, can be **decontaminated** and are made in the USA from quality recycled plastic that is odor free. All Dura Crib® interlocking blocks, chocks and pads are load rated. Year over year reliable and repeatable performance of the products makes them the environmental, health and safety choice over wood cribbing.

TRAINING PROGRAM

Did you know that we offer product training? Turtle Plastics® has worked with rescue trainers to develop practical, first responder cribbing and kits that are portable and combine stabilization components for auto extrication maneuvers. Our Dura Crib® brand products are "Rescue Ready" and fit most engine compartments. We have dozens of products to choose from or we have preconfigured kits with our most popular products.

To thank you for your interest in our products, we would like to extend a complimentary lunch and learn training program on our products for departments who can register 15 or more firefighters for a class.

Please call Dennis Hildebrandt at 1-800-756-6635 extension 205 to schedule your training.
