# ABOUT US

At 6 years old, Amy Tucker's young son began playing in the ocean. He loved the ocean but could not tolerate the painful salt water chafing. After several years of trying other products that failed, Amy took to her kitchen to create a solution just for him. Her son, Trent, insisted it be clear, not attract sand, not rub off on his board or shorts, and last all day in the southern heat, humidity, and ocean. With those marching orders, Amy experimented for years. "Mama's Goo" was a hit and made it's way through the local families. Demand exploded and what she thought was just a coastal solution for salt water chafing became so much more. Testimonials from beach goers, endurance athletes, ultra runners, tactical athletes, those that work in the elements, first responders, war fighters, and even amputees have been more than Amy and her family ever expected or imagined.

# BENEFITS OF SALTY BRITCHES

- Super Robust, Won't Melt or Sweat Off the Skin, Waterproof
- Formulated to Withstand High Heat, Humidity, Extreme Cold
- Will Prevent Skin Irritation OR Soothe After Irritation

Did Not Show Comedogenicity
- Dermatologist Tested
- 5 Year Best Buy Date

## ORIGINALLY DISCOVERED BY SOCOM OPERATORS

Active duty SOCOM operators discovered Salty Britches at a local market in SC during a training operation. They contacted us and requested Salty Britches be made in a black tube. The end users were instrumental in the black tube design and logo.

"I've been using Salty Britches since you brought it to the battalion and it's been a game changer. I didn't have a single blister and nothing but a dime size little chafe on my back through the comp. Unreal"

"BRC 2024 Team 38 here. Never had one ounce of chafing! It was absolutely phenomenal!"

"I highly recommend this product. I have used all types of Body Glide and deodorant to prevent chafing, but nothing has worked better than Salty Britches. I used it every morning of the Best Ranger Competition and had zero chafing."
