

UTILITY HARNESS

Our Utility Harness is a simple solution for a truck company's rope kit, this simple one-size-fits-most harness uses the same heavy-duty web and buckles as our rescue harnesses and is sewn to the same exacting standards. Its contrasting stitching is easy to inspect.

Features

- Steel D-ring attachment point at front waist.
- Easily adjustable for wide range of fit.
- Contrasting color thread to aid in wear inspection.
- Corrosion-resistant hardware.
